III Quality and equipment

- Building made of unbaked clay or a barrack - Prefabricated buildings (wood, tin or iron) - Buildings made of mixed materials - Buildings made of hard materials - Buildings made of hard materials - Classical façade - Brick façade - Artificial stone façade - Natural stone façade - Natural stone façade - Completely equipment - Completely equipped bathroom (bath-shower, toilet, laver) per apartment - Partly equipped bathroom	III Quality and equipment	
- Prefabricated buildings (wood, tin or iron) - Buildings made of mixed materials - Buildings made of hard materials - Classical façade - Brick façade - Artificial stone façade - Natural stone façade - Completely equipped bathroom (bath-shower, toilet, laver) per apartment - Completely equipped bathroom per apartment - Partly equipped bathroom - Partly equipped bathroom - Water supply - Water supply - Water piping connected to main water supply per apartment - Water piping connected to a well – water pump per apartment - Sewage system connected to main sewage per apartment - Sewage system connected to cesspool - Sewage system connected to cesspool - Sewage system connected to cesspool - Per apartment - Central installation - Telephone installation - Telephone installation - Telephone installation - Central heating system - Other means of heating (solid fuel, liquid fuel or electricity) per apartment - Other means of heating (solid fuel, liquid fuel or electricity) per apartment - Swimming pool - Solar heating system - Swimming pool - Solar heating system - Swimming pool	1) Construction of a building	
- Buildings made of mixed materials - Buildings made of hard materials - Buildings made of hard materials - Classical façade - Daridical stone façade - Artificial stone façade - Natural stone façade - Partly equipment - Completely equipped bathroom (bath-shower, toilet, laver) per apartment - Partly equipped bathroom - Partly equipped bathr	- Building made of unbaked clay or a barrack	
- Buildings made of hard materials	- Prefabricated buildings (wood, tin or iron)	
- Classical façade - Brick façade - Artificial stone façade - Natural stone façade - Natural stone façade - Natural stone façade 2) Sanitary equipment - Completely equipped bathroom (bath-shower, toilet, laver) per apartment - Partly equipped bathroom - Partly equ	- Buildings made of mixed materials  Puildings made of hard materials	
- Brick façade - Artificial stone façade - Natural stone façade - Natural stone façade 2) Sanitary equipment - Completely equipped bathroom (bath-shower, toilet, laver) per apartment - Partly equipped bathroom	- Dununigs made of natu materials - Classical facade	
- Artificial stone façade - Natural stone façade 2) Sanitary equipment - Completely equipped bathroom (bath-shower, toilet, laver) per apartment - Partly equipped bathroom - Partly equipped bathroom - Partly equipped bathroom - Partly equipped bathroom - Water piping connected to main water supply - Water piping connected to a well – water pump - Water piping connected to a well – water pump - Sewage - Sewage system connected to main sewage - Sewage system connected to cesspool - Sewage system connected to cesspool - Electrical installations - Electrical installation - Telephone installation - Telephone installation - Central heating system - Solar heating system - Other means of heating (solid fuel, liquid fuel or electricity) per apartment - Other means of heating (solid fuel, liquid fuel or electricity) per apartment - Swimming pool - Swimming pool		
- Natural stone façade  2) Sanitary equipment - Completely equipped bathroom (bath-shower, toilet, laver) per apartment - Partly equipped bathroom  3) Water supply - Water piping connected to main water supply per apartment - Water piping connected to a well – water pump per apartment  4) Sewage - Sewage system connected to main sewage per apartment - Sewage system connected to cesspool per apartment  5) Electrical installations - Electrical installation - Telephone installation - Telephone installation - Central heating system - Solar heating system - Other means of heating (solid fuel, liquid fuel or electricity) per apartment - Swimming pool  7) Elements that increase the value of the structure - Swimming pool  50		
- Completely equipped bathroom (bath-shower, toilet, laver) per apartment - Partly equipped bathroom per apartment 10  3) Water supply - Water piping connected to main water supply per apartment - Water piping connected to a well – water pump per apartment 4) Sewage - Sewage system connected to main sewage per apartment - Sewage system connected to cesspool per apartment - Sewage system connected to cesspool per apartment - Telephone installation - Telephone installation - Central heating system - Solar heating system - Other means of heating (solid fuel, liquid fuel or electricity) per apartment - Swimming pool  50  10  20  21  22  23  30  41  42  43  45  46  47  48  49  49  40  40  40  40  40  40  40  40		
- Completely equipped bathroom (bath-shower, toilet, laver) per apartment - Partly equipped bathroom per apartment 10  3) Water supply - Water piping connected to main water supply per apartment - Water piping connected to a well – water pump per apartment 4) Sewage - Sewage system connected to main sewage per apartment - Sewage system connected to cesspool per apartment - Sewage system connected to cesspool per apartment - Telephone installation - Telephone installation - Central heating system - Solar heating system - Other means of heating (solid fuel, liquid fuel or electricity) per apartment - Swimming pool  50  10  20  21  22  23  30  41  42  43  45  46  47  48  49  49  40  40  40  40  40  40  40  40	2) Sanitary equipment	
- Partly equipped bathroom per apartment 10  3) Water supply - Water piping connected to main water supply per apartment 20 - Water piping connected to a well - water pump per apartment 10  4) Sewage - Sewage system connected to main sewage per apartment 20 - Sewage system connected to cesspool per apartment 20  5) Electrical installations - Electrical installation per apartment 5  6) Heating - Central heating system per apartment 40 - Solar heating system per apartment 20 - Other means of heating (solid fuel, liquid fuel or electricity) per apartment 10  7) Elements that increase the value of the structure - Swimming pool 50		30
3) Water supply  - Water piping connected to main water supply per apartment - Water piping connected to a well – water pump per apartment  4) Sewage  - Sewage system connected to main sewage per apartment - Sewage system connected to cesspool per apartment  5) Electrical installations - Electrical installation - Telephone installation - Telephone installation - Central heating system - Solar heating system - Other means of heating (solid fuel, liquid fuel or electricity) per apartment  7) Elements that increase the value of the structure - Swimming pool  50		
- Water piping connected to main water supply per apartment - Water piping connected to a well – water pump per apartment  4) Sewage - Sewage system connected to main sewage per apartment - Sewage system connected to cesspool per apartment - Sewage system connected to cesspool per apartment - Electrical installations - Electrical installation - Telephone installation per apartment - Telephone installation - Central heating system - Solar heating system - Other means of heating (solid fuel, liquid fuel or electricity) per apartment - Swimming pool  7) Elements that increase the value of the structure - Swimming pool		10
- Water piping connected to a well - water pump per apartment 10  4) Sewage  - Sewage system connected to main sewage per apartment 30 - Sewage system connected to cesspool per apartment 20  5) Electrical installations - Electrical installation per apartment 20 - Telephone installation per apartment 5  6) Heating - Central heating system per apartment 40 - Solar heating system per apartment 20 - Other means of heating (solid fuel, liquid fuel or electricity) per apartment 10  7) Elements that increase the value of the structure - Swimming pool 50	3) Water supply	
- Water piping connected to a well - water pump per apartment 10  4) Sewage  - Sewage system connected to main sewage per apartment 30 - Sewage system connected to cesspool per apartment 20  5) Electrical installations - Electrical installation per apartment 20 - Telephone installation per apartment 5  6) Heating - Central heating system per apartment 40 - Solar heating system per apartment 20 - Other means of heating (solid fuel, liquid fuel or electricity) per apartment 10  7) Elements that increase the value of the structure - Swimming pool 50	- Water piping connected to main water supply per apartment	20
4) Sewage  - Sewage system connected to main sewage per apartment 30 - Sewage system connected to cesspool per apartment 20  5) Electrical installations - Electrical installation per apartment 5  - Telephone installation per apartment 5  6) Heating - Central heating system per apartment 40 - Solar heating system per apartment 20 - Other means of heating (solid fuel, liquid fuel or electricity) per apartment 10  7) Elements that increase the value of the structure - Swimming pool 50		10
- Sewage system connected to main sewage per apartment - Sewage system connected to cesspool per apartment 20 5) Electrical installations - Electrical installation per apartment - Telephone installation per apartment 5 6) Heating - Central heating system per apartment - Solar heating system per apartment - Other means of heating (solid fuel, liquid fuel or electricity) per apartment 7) Elements that increase the value of the structure - Swimming pool 50		
- Sewage system connected to cesspool per apartment 20  5) Electrical installations - Electrical installation per apartment 20 - Telephone installation per apartment 5  6) Heating - Central heating system per apartment 40 - Solar heating system per apartment 20 - Other means of heating (solid fuel, liquid fuel or electricity) per apartment 10  7) Elements that increase the value of the structure - Swimming pool 50		30
5) Electrical installations - Electrical installation per apartment 20 - Telephone installation per apartment 5  6) Heating - Central heating system per apartment 40 - Solar heating system per apartment 20 - Other means of heating (solid fuel, liquid fuel or electricity) per apartment 10  7) Elements that increase the value of the structure - Swimming pool 50		20
- Electrical installation per apartment 20 - Telephone installation per apartment 5  6) Heating - Central heating system per apartment 40 - Solar heating system per apartment 20 - Other means of heating (solid fuel, liquid fuel or electricity) per apartment 10  7) Elements that increase the value of the structure - Swimming pool 50		
- Telephone installation per apartment 5  6) Heating - Central heating system per apartment 40 - Solar heating system per apartment 20 - Other means of heating (solid fuel, liquid fuel or electricity) per apartment 10  7) Elements that increase the value of the structure - Swimming pool 50		20
6) Heating  - Central heating system per apartment 40  - Solar heating system per apartment 20  - Other means of heating (solid fuel, liquid fuel or electricity) per apartment 10  7) Elements that increase the value of the structure  - Swimming pool 50	Ken m2k   Max m	
- Central heating system per apartment 40 - Solar heating system per apartment 20 - Other means of heating (solid fuel, liquid fuel or electricity) per apartment 10  7) Elements that increase the value of the structure - Swimming pool 50	27 W 27 STATE OF THE STATE OF T	
<ul> <li>Solar heating system</li> <li>Other means of heating (solid fuel, liquid fuel or electricity) per apartment</li> <li>Elements that increase the value of the structure</li> <li>Swimming pool</li> </ul>		40
<ul> <li>Other means of heating (solid fuel, liquid fuel or electricity) per apartment</li> <li>Elements that increase the value of the structure</li> <li>Swimming pool</li> </ul>		20
7) Elements that increase the value of the structure - Swimming pool 50		
- Swimming pool 50		10
- Access to the asphalt road 40		50
	- Access to the asphalt road
